Dates: U16/18	February 12-13
Location:	Gore Mountain
Cost:	\$90.00 for two days

Lodging information can be found on the Gore Mountain website

This is a two day commitment and can not be separated for attendance.
Athletes and coaches are responsible for lodging and meals, this and effort
to keep on site project costs at a minimum. Will have a list of lodging on next email.

This is an effort to get some of our athletes together for Super-G development at appropriate venues for age groups. Supporting cross pollination with divisions.

Getting these athletes together has a great impact on pace and collateral overflow when coaches and athletes return to their home program.

Day one is geared at specific environments that will address tactics, technique, and terrain.
Day two will be a couple of full length sets but not a race. This will give coaches in pods of athletes and opportunity to go over some areas of improvement.

Coaches are highly encouraged to come with their athletes, but we can help with any athletes that need coaching without their program coach attending. We will also have some coaches that have skied at high levels of speed competition attending. This will have some former US Ski Team athletes that excelled in this area as well.

Coaches at this event will get listed and sent to USSS Coaches Education for credit.
