

Race Announcement Project U8/U10 GS at Jay Peak

Date: 01/18/2026

Event: U8 and U10

Location: Jay Peak Resort Jay, Vermont

Eligibility: Invitation only for U8 and U10 athletes

Entry: By registration on www.adminkiracing.com. Fee \$25, includes lift ticket for athletes (\$10)

Registration: Bibs will be available at the Timing Building day of the race at 7:30 – 8 am. One coach from each club should pick up bibs and lift tickets between 7:30 and 8 am

Race Day Communication: All official announcements including referee report, results and second run order will be communicated via the WhatsApp group

Preparation: It is recommended that athletes boot up in the parking lot, but they can go into the Stateside lodge for bathrooms, to warm up, or to eat.

Course: The course will be on the Haynes. You use the Jet triple chair to access the Haynes. Get off the chair and it is the second trail on the left. **In the afternoon there will be lift lines so leave yourself plenty of time!**

Awards: Awards ceremony will be held at the end of the day approximately 45 minutes after completion of second run and will be announced at the fire pit outside of Howie's restaurant at the Stateside Lodge

Start Order: The race order is "randomized by club". We are running all girls first for U8 before U10 and then the boys will follow.

2nd Run: 2nd run will be set right after completion of 1st run. 45 min 2nd inspection and then 2nd race run. The 2nd run start order will be reversed by club with U8 running before U10 and girls before boys.

Athletes will only be allowed to ski on Haynes before the resort opens at 8:30. If athletes are caught skiing on any other trails they will be DQ'ed from the event.

Schedule:

Coaches Meeting: Saturday, January 17 at 7pm

Jay Peak U8/U10 Project Race Coach Meeting

Saturday, January 17 · 7:00 – 8:00pm

Time zone: America/New_York

Get ready for A FAST, FURIOUS, FUN day of Ski Racing!!!

Jay Peak Ski Club/Jay Peak Resort Medical Plan

The medical plan will be outlined at the initial team captains meeting for the event. At that meeting the organizing committee will clearly identify the location of the competition venue, as well as identify the location of properly fenced and protected warm-up areas.

At least two ski patrollers are stationed at the top of the Jet Triple chair which is also at the top of race hill. Ski patrol can be notified of an incident in several different ways. The patroller at the top of the hill will be in direct contact with an official using a competition radio. On hill event staff are also able to contact ski patrol using cell phones and by utilizing land-line phones available in all lift buildings. There are two sleds with backboards available at the top of the mountain and one at the start; this is in addition to several backboards and other first responder medical supplies that the ski patrol stocks in abundance at the top of the mountain.

Injured athletes will be evacuated from the competition venue to the State Side ski patrol building by toboggan.

In the event of a minor or non-life-threatening injury where immediate treatment is not necessary, the injured party may be treated at the State side ski patrol building and then released to the parent or coach. Ski patrol may recommend that the injured party should transport themselves to the hospital for further examination/treatment.

In case of serious injury, ski patrol on the hill can initiate an EMT/Ambulance response. Under normal circumstances the ambulance arrives at the ski patrol building at about the same time as the injured party arrives in the toboggan.

Typical ambulance response time is around 5-10 minutes. Jay Peak Ski Patrol has arrangements with two different ambulance services. MISSISSIQUOI Ambulance Service is the primary responder. They are located 4 miles from the mountain. Newport Ambulance Services is the secondary responder. They are located 20 miles from the mountain.

In general, serious injuries are transported by ambulance to Northern Country Hospital which is located 22 miles from the mountain. The most serious injuries are typically stabilized there and then transported to Dartmouth Hitchcock Medical Center or UVM Medical Center (UVMHC) by DHART helicopter depending on where the athlete lives. Once activated by a paramedic or an emergency room doctor, the DHART helicopter has a response time of approximately 20 minutes. The DHART helicopter has the

ability to respond directly to the mountain if necessary. In the case of a major injury, the event will be stopped for as long as necessary to ensure that ambulances, helicopters, EMT's, doctors, etc..., are back in place and will be available in the case of another major injury.
